TURNIP, SAKATA'S TOKYO MARKET

(popularly called *Salad Turnip*)

We again wish to draw attention to Turnip, Sakata's Tokyo Market which is enjoying increasing demand in the South. This pure white Turnip with small flattened root produces a crop quicker than any other Turnip. The tops are always tender regardless of whether the Turnip is planted late in the Spring or early in the Fall.

Recommend this Turnip to your customers. You will build up a steady trade.

MUSTARD WHITE GLEAM (Pac-Toy)

There has been considerable inquiry for this Mustard. T. Sakata & Company have recently improved the strain considerably so that we are now able to offer a very fine uniform stock.

According to trials of several southern agricultural experiment stations this Mustard has a good possibility in the South. Please call on us for further information about this Mustard which we feel confident has a definite future

1937 CROP CONTRACTS

Early orders for flower and vegetable seeds placed before planting time offer to the grower such great advantages that he is willing to compensate the buyer by a concession in the price. Further, early orders enable the grower to make proper provision to take care of your requirements so they are a form of insurance against short delivery. Take advantage of these inducements by ordering early. Our 1937 crop vegetable pricelist is in the mail. If you will examine it and advise us the quantities you require we will advise you the lowest possible prices.

Bear in mind that the duty on seeds from the Orient is no higher than the lowest rate prevailing from any country and that in many instances such shipments enjoy a favorable rate of freight.

FLOWER SEED at WHOLESALE

Please ask for complete list—we quote here only a few of the more popular varieties.

Customers along the Atlantic Seaboard will be pleased with the promptness with which their orders reach them.
